

a totally awesome make-it-yourself

HOOPS & YOYO

Mini Holiday Handbag

use it as a gift bag, or to tote Santa's elves around town in!

Instructions:

1. Print out box.
2. Cut out box along solid lines
3. Fold box along dotted lines.
4. Glue tabs to inside of box.
5. Fasten handles together with ribbon or tape to seal.
6. If you're using this for a gift bag, attach a hoops&yoyo gift tag to the handle!

Tips:

For a larger bag that can hold more items, print on legal-sized paper.

If your printer can handle card stock or heavier paper, your handbag will be much sturdier!

Otherwise, you can print on regular paper and glue or mount your printout to card stock to make it stronger.

Be sure to fill in the "To" and "From" blanks before you start. It's much easier to do before the bag is assembled!
